

2009 Press Program

Post-Traumatic Stress Disorder

The Use of Psychiatric Service Dogs with Soldiers Who Have PTSD

Principal Investigator: Craig Love, Westat, Inc.

Virtual Environments for Cognitive and Affective Dysfunction in Mild Traumatic Brain Injury and Post-Traumatic Stress Disorder: Development of a 21st Century Treatment Platform

Principal Investigator: Charles Levy, North Florida Foundation for Research and Education, Inc.

Pharmacologic Management of Post-Traumatic Stress Disorder and Co-Morbid Alcohol Dependence in Veterans

Principal Investigator: Ismene Petrakis, Yale University

Prazosin Reduces Trauma Nightmares and Severe Sleep Disturbance in Soldiers Deployed in Iraq

Principal Investigator: Murray Raskind, Seattle Institute for Biomedical and Clinical Research

Peer Reviewed/General Military Health Issues

Nutritional Effects on Cognitive Performance

Principal Investigator: Glenda Lindseth, University of North Dakota

Optimal Therapeutic Target for Stereotactic X-Irradiation in Experimental Spinal Cord Injury

Principal Investigator: Richard Zeman, New York Medical College

Post-Deployment Adjustment and Cross-Leveling Concerns of Operation Enduring Freedom and Operation Iraqi Freedom Reserve and National Guard Servicewomen

Principal Investigator: Anne Gordon Sadler, VA Medical Center, Iowa City

Strong Families Strong Forces: Preliminary Findings in the Development of a Family-Based Reintegration Program Supporting Military Families with Very Young Children

Principal Investigator: Ellen Devoe, Boston University

Traumatic Brain Injury

Efficacy of Countermeasures against Traumatic Brain Injuries Sustained in Airborne Operations

Principal Investigator: John Crowley, U.S. Army Aeromedical Research Laboratory

Post-Deployment Driving Problems: Survey of Scope and Timeline for Post-Deployment Soldiers with and without Mild Traumatic Brain Injury

Principal Investigator: Erica Stern, University of Minnesota School of Public Health

Injectable Hydrogels for Brain Tissue Regeneration after Traumatic Brain Injury (TBI)

Principal Investigator: Ning Zhang, Clemson University

A Panel of Biomarkers Accurately Predicts the Probability of Intracranial Pathology in Mild Traumatic Brain Injuries

Principal Investigator: Gerald Grant, Duke University

Gulf War Illness

A Randomized, Double-Blind, Placebo-Controlled, Crossover Trial of Mifepristone in Gulf War Veterans with Chronic Multisymptom Illness

Principal Investigator: Julia Golier, Bronx Veterans Medical Research Foundation, Inc.
